Independent parts supplier
for surface & underground
mining equipment

VESTRO MACHINERY (TIANJIN) CO., LTD. is an independent supplier of mining equipment spare parts, focused on genuine and aftermarket parts compatible with Epiroc and Atlas Copco surface and underground mining equipment.

We support mining contractors, equipment owners, repair workshops and parts distributors with reliable parts sourcing for drill rigs, underground drilling equipment, loaders, haul trucks and related systems. Our product range covers hydraulic components, seal kits, filters, pumps, valves, electrical parts, service kits, undercarriage parts and other high-demand maintenance components.
